

**ALL of Late July's products are 100% SAFE.
Our peanut butter is NOT part of the recall.**

- We source our organic peanut butter exclusively from a manufacturer in New Mexico, Sunland Inc. who is **unequivocally** not involved in this recall and strictly adheres to Good Manufacturing Practices.
- All products processed and manufactured by our peanut butter company, Sunland Inc, exceed FDA safety requirements.
- All of our peanut butter is independently tested by an outside lab for salmonella, E. coli, mold, aflatoxins and other pathogens.
- We have begun a transparency campaign on our website where we will choose an ingredient to spotlight each month and describe it in detail. We believe all food manufacturers have an obligation to be as transparent as possible about the ingredients they use and hope more food manufacturers follow our lead.

Our 25 years of experience in the food industry has given us incredible insight into food safety and quality. We believe everyone has a right to know exactly where their food is coming from. We hope you enjoy learning more about our ingredients and our sourcing process for new vendors and ingredients. For more information call 888-85-SNACK, email us info@latejuly.com or visit our website www.latejuly.com.
